

# other logistics applications

If you're looking for a reliable computer with a large 15-inch monitor to be used in your warehouse vehicle, port crane, or simply mounted on the wall, take a look at the JLT1514N fixed-mount computer. It's based on the JLT-series of 10- and 12-inch logistics computers that has been proven in thousands of customer applications around the world. It delivers the reliability and value required for a wide range of logistics applications where a large display size is a requirement. The JLT1514N comes with an Intel® E3845 processor, Windows operating system and all essential features required for a simple, quick, and cost-effective installation. As with the rest of the JLT logistics computer series, the JLT1514N is constructed from the bottom up for maximum reliability and long life.
